

# An Extraterrestrial Perspective on Earth

*The Andromedans insist that we have a unique genetic heritage and awesome powers to change our world for the better, as long as we can free ourselves from fear.*

**A**lthough many elements contained within this December 1995 lecture by ET contactee Alex Collier are unverifiable, this material is so highly interesting that it demands presentation. Relate it to other material and decide for yourself. Together with other information in existence, it appears to have a bearing on the immediate future of planet Earth and all its inhabitants.

(Note: AC = Alex Collier; Q = Audience questioner)

### Life in the Cosmos

**AC:** As you can see, the Earth is on the fringe of our galaxy. If it were more toward the centre, we would not have had whatever opportunities we *have* had for self-rule. We take for granted whatever freedoms we've had.

The Andromedans say that there is biological life on seven planets and 15 moons in our solar system, but human technology is not sufficiently advanced to detect it.

**Q:** Many of us have wondered why we are here on the planet in the first place. Do you have any information on that?

**AC:** I have been told that some of us have been here a long time, evolving, learning not to withhold love. I have also been told that some of us have come back in time from the future, to this time now, to right a terrible wrong. That's all I know.

**Q:** What is your understanding of the human energy fields?

**AC:** It is my understanding that there are eight of them that compose a holographic imprint of all that we are individually, focussed into *one intent*, which is the *physicality* we are in right now. In other words, we are *multidimensional*, and it takes eight levels of intent to create my being here, talking to you at this time.

**Q:** Several years back, I was told by a friend of mine in the CIA that his brother, who had retired from NASA as the Director of Operations, had told him that the 1990 meeting between George Bush and Gorbachev on a boat off the shore of Malta was solely for the discussion of an object orbiting around Mars. The comment by this man was that "both of them were scared to death". This would correlate with the 1989 takeover that you mention on your tape.

**AC:** I was told that we were given technology and allowed to colonise the Moon and Mars. The best technology was taken to Mars, and some of our strongest genetic human beings were taken there. After that happened, in 1989 the Draconians broke the deal, invaded Mars and destroyed the human colony there. I was told this happened in March 1989.

Along with that, our government was told by the Draconians to *trash* our environment totally, in order to bring the people to their knees. They were given a promise by the Greys that they would use their technology to clean up the planet once the government had extinguished self-rule on the planet. According to Morenae, the Greys have no intention of keeping that promise.

The bottom line is that *we*, the people, need to stand up and take over the leadership roles on our planet. I don't know how we will do it, but if we do it together we will succeed. We have to put all the stupid things aside and look at our priorities. What are our priorities? The environment, each other and our children. We have to do this. Somehow we have to do this.

**Q:** I would like to know if the Andromedans are going to help us, when they plan to do this, and whether or not they will inform us so we could unite in a more uniform effort to overcome the problems we have.

**AC:** They have actually made that decision by telling all of the extraterrestrial races to be *out of here* by 12th August 2003. Some of the crop circles have been done by the

Andromedans as *messages* to some of the other races that they have to be *out* of here by that time. They have made a decision to intervene. If it is going to be any sooner, I am told that it requires at least 10 per cent of the population to request it. We each have to ask individually, and it has to be at least 10 per cent of the population. They said, "By the time you finish your prayer, we will be here." They want to help, but we have free will. If they just come in without being asked, then they are violating our free will the same way the Greys and Draconians have. They will not do it. It is not the standard they live by.

**Q:** Do you have any idea how the Andromedans will extract aliens who refuse to leave?

**AC:** I have no idea, but if there are any *in* the Earth, the only way I personally can see would be to enter in at the poles and force them out, which means it could get really weird here. Could you imagine reptilians running across the interstate highway?

**Q:** You said that the next 10 years are going to be weird. Is this part of that weirdness, and what else is there that we could expect? You said that they lost Mars, and the Moon doesn't seem to be a good place to go.

**AC:** Right. The Moon was just a jumping point to colonise Mars. Because of its lack of atmosphere, long-term habitation cannot exist on the Moon—which is why they had to go to Mars. Well, they lost *both* of them, and the world leaders and everybody who made all these deals with the aliens now find themselves in a real problem: they have *nowhere to hide*. They can't skip out of here.

### Flights among the Stars

**Q:** What happens to the individual spirit when it leaves the body? Where do we go?

**AC:** This is going to stretch your belief systems. I want you to look at the idea that when we cross over and we all 'see the light' and 'meet our loved ones', my understanding is that the physical location of that process would be where the Van Allen belt is. We go there and we are *processed* there. Part of the processing is looking back at our life to see where we withheld love, and then we come back to balance where we withheld love. If they had not messed with the religions, we would have learned this lesson a long time ago.

**Q:** Could you explain further what the Andromedans said about our ability to project holographically with our minds?

**AC:** They said that all of our experiences are recorded *holographically*. When you look at me, for instance, your brain is not only recording what you see, but also my *energy field*, the *thoughts* in my energy field, and more. The mind is recording that all the time, and they say that we have the capability to tap into it. Morenae made reference to the fact that the whole universe is changing because *thought* is changing. They are one and the same.

**Q:** Can the holographic camera you mentioned before just access this incarnation or can it go further back?

**AC:** It can go further back.

**Q:** Back to the state of our DNA prior to the removal of the 10 strands?

**AC:** Yes, and we have this information about that state recorded within our energy field. Everything we have *ever* been is recorded there. Read between the lines, please.

**Q:** What about the cancer problem?

**AC:** According to Morenae, part of the cancer problem is genetic. When our physical bodies were created, they put in certain genes to make our bodies grow faster. When they stripped us of the 10 strands, some of the genes they should have taken out they left in. Something in us kicks these genes into gear, and cancer starts to manifest. The vibration of love can cure that.

### Intent, Instinct and the Effect of Frequency-Shifting

**Q:** I am wondering, as we focus our attention on light and love, won't that connect with higher forces that are waiting to work with us?

**AC:** We are already connected. The thing that they are really looking for is our *intention*. If you could *stop* before you slapped a dog or made whatever decisions in your life, stop a moment and ask yourself, "What is my intention behind this decision?" It is *intent* that created this mess.

We have to take responsibility. So many of us are making decisions based on an automatic response to past stimuli. We are not consciously aware of our intent, nor are we matching the intent with our gut instinct. If you have a gut instinct *not* to do something, *not* to go somewhere, then *don't* do it—and honour it, and honour your Self.

You know these *frequency changes* that are coming? The Andromedan perspective is that those who will be affected the most here on our world will be the *men*. They say that a lot of the men on our world are going to be leaving—*transitioning*. The obituary columns in newspapers will be 10 to 15 pages long.

The reason for this is that the majority of men are full of self-imposed isolation. They have shut themselves down. If they *don't* allow energy to move through their bodies like women do, a lot of men are *not* going to make it. They will have brain aneurisms and heart attacks. If you are not in a space of love, then you are in a space of fear.

### Comet Hale-Bopp: Blue Star or Empire Strikes Back?

According to Morenae, Comet Hale-Bopp is a *protocol ship* from Orion. It has four spiral structures on it and carries two moons behind it. When it gets closest to our Sun in early 1997, the two moons will go into orbit with Mercury. Our government is going to make a "They're here!" public announcement. They are *not* here to help us. They are here to make sure control is maintained.

Change is coming, and you should get ready for it. We are running out of time, but we can do it. We can do it *ourselves* and we can be proud of the fact that we can do it. When UN helicopters start flying, don't turn on each other: this is exactly what they want you to do.

**Q:** What I understood you to say before was that *evil* is a function of our own *beliefs*, and that *matter* is a function of our beliefs. Do I have that right?

**AC:** Yes, sir. So, *everything* is a belief system. So, what is the

"The Andromedan perspective is that those who will be affected the most here on our world will be the men. They say that a lot of the men on our world are going to be leaving—transitioning."

intent behind what we believe? I will go back to what Morenae has said, that it is not so much *what* you believe as to *why* you believe it.

**Q:** So, if you stand on those two things, there is no matter and there is no evil.

**AC:** Technically that is correct, but I am not at that level.

### The Future: Self-Responsibility and Self-Determinism

**Q:** I see a parallel in a lot of belief systems, and I wonder if it is a part of the overall historical world programming. Basically, the New Age people think there is going to be a transition into a new consciousness, like you are talking about. I see the same kind of mechanism in the Christian belief system, in terms of "the rapture". I see a lot of people involved with the UFO material thinking, "They are coming down to save us." There are four or five different versions of this, depending on what state of consciousness those groups happen to be in. Basically, to me, the message is, "Just lie down and let the tanks roll over you." It is to deflect one away from personal responsibility. Do you have any thoughts on that?

**AC:** Yes, sir, I do. I once asked Vissaeus to give me a 'definition' of our future and what it is going to be. He said that he couldn't tell me; that it all involved *probabilities*. I said to him, "Then what can you tell me?" He said, "Well, I *can* give you a definition." This is the definition of where we are supposed to be going—and he says that we *will* reach this point: responsible freedom of self-determination, becoming truly self-confident and free to be unconditionally responsible for oneself without being coerced into accepting some higher authority. What we are looking for, we already *are*.

As far as wanting to be saved is concerned—and I know this is a real touchy subject—if you want to be saved, that's fine. But, between now and the time you *do* get saved, *be responsible* for yourself and teach your children to be responsible for themselves. We are supposed to become a race of *leaders*, not a race of *sheep*. We are supposed to be *chiefs*. That is what they teach their people. Nobody falls behind; we all evolve together.

The children are supposed to be taught everything that we know and more. Nothing is supposed to be withheld from children, because they are the next level of consistency. I can't believe what they are 'teaching' children in school today. They are teaching them nothing. *Nothing*. They can't solve any problems for themselves. They are being taught *what* to think so they can spit back facts, like a computer. They are not being taught to *think for themselves*. Folks, we *owe* it to them to teach them how to think for themselves. Schools are just babysitters. In the Andromedan system, the people who are held in the highest regard are the *teachers*, because they are the ones who affect all the future generations. Here, half of the teachers are starving.

We are doing this thing backwards. We are going to have to make changes, and we're the ones who are going to have to do it—whether it's home schooling or going to Washington, firing everybody and starting all over again.

### The Andromedan Perspective on Biblical Matters

As far as the 'saviour' scenario is concerned, I have been told that it has been put into our belief systems to *disempower* us.

Now, this is touchy, so I am just going to share with you what they have said. And I am going to 'pick on' the New Testament, and I apologise. Again, I am not trying to offend anybody. I am just sharing information that they have given me. This is *their* perspective.

Most of the Old Testament, especially *Genesis*, consists of *pirated* versions of Chaldean texts that were constructed in 651 BC. The being we have been taught was one person, Moses, was in fact *two* people. One of them was Moab, a Chaldean chief, and the other was Prince Sesostres of Egypt. The authors, in 651 BC, put the two together and created a composite character. So, it is not what it appears to be.

When we get to the New Testament, the nine Epistles of Paul were apparently brought from India by Apollonius of Tyrana. The four Gospels were obtained by Harriman Armandi in India. They were Hindu in their original form, written by Apollonius who was also known as Paul the Apostle.

The being whom we know as Jesus did in fact live. He was crucified. But, according to the Andromedans, he did not die then but lived out the rest of his life and died at Masada in 64 AD. Now, I don't know about all of this; I wasn't there.

They also say that the last version of the Gospels and Epistles was translated by Euphilius, a Catholic bishop, and that the original books in their original form are at the University of Uppsala, and are called the *Codex Argentinus*. The original handwriting is in Sumerian. That is all I know, and, again, that is *their* perspective.

**Q:** What about Adam and Eve?

**AC:** It was a *tribe*, not just two beings, according to the Andromedans.

**Q:** The idea that Moses may in fact have been a composite character doesn't seem to detract from the idea that 'he' was in the right place at the right time and was able to be a leader.

**AC:** You are absolutely right. Now, where is the best place to hide a lie? Between two truths. You change it just enough so you can't put the pieces together. Remember, this

whole thing is about self-responsibility, self-rule and self-choice. They have altered the truth just enough that it has kept all of us holding back, waiting and waiting—lifetime, after lifetime, after lifetime.

Here we are, making a decision to hold ourselves back because we are waiting for someone to come and *save* us. It isn't going to happen. They say it just isn't going to happen. They don't want to come in here and 'save' us because they don't want to babysit; for if something 'happened', we could always blame *them*, and the cycle would start all over again.

We don't have time: the Earth is sick. We have no other place to go. I know this is not the answer you want to hear. It's not the answer *I* want to hear, because it means I really have to bust my ass to fix my life. But I don't have a choice. It's just the way it is.

**Q:** But there is a saving reality. There is the truth that brings people the challenge to grow internally to be able to keep up when the planet goes into fourth and fifth dimension. It puts a great responsibility upon us as individuals.

**AC:** Right. Now, let us assume that Jesus is a reality. Jesus did say, "Ye shall be greater if ye shall have faith." There's a profound message in that. "These things I do, ye shall do greater if ye have faith." There is a profound message there. Please don't ignore it. You are *awesome*. Every one of you is awesome.

**"In the Andromedan system, the people who are held in the highest regard are the teachers, because they are the ones who affect all the future generations. Here, half of the teachers are starving."**

## The Next Ten Years from the Andromedan Perspective

Now, I want to share what is going to happen in the next 10 years, according to the Andromedans. We shall see:

- 1) Scientific proof of dimensions and Higher Self consciousness.
- 2) Scientific proof and demonstration of reincarnation. (I can see where that might lead us. Everyone will start running to Buddhism and say, "This is the way!")
- 3) Acknowledgement of life elsewhere in the Universe.
- 4) Extraterrestrial contact with at least nine different races.
- 5) Introduction of clean free-energy devices based on magnetic fields.
- 6) Knowledge that the Earth is hollow and capable of sustaining life within, and knowledge of a city within, called Kalnigor, that was originally built by Lyrans.
- 7) Rediscovery of the lost lands of Atlantis.
- 8) Discovery of a large temple complex in the Pacific, 150 miles south of Easter Island, that belonged to Lemuria. The Russians already know it's there.
- 9) Knowledge that what we see in the 'physical' is a holographic imprint created and directed from a higher portion of ourselves.
- 10) Knowledge that human consciousness is not in the brain, but is located entirely in the energy field and aura surrounding the physical body.
- 11) We shall have the realisation on how our past and present educational processes have not prepared us to be creative and conscious thinkers.
- 12) Organic life does exist on seven planets and 15 moons in our solar system.
- 13) The general discovery that each of us is a part of the Whole, and that we are a significant part of the idea that we call "God", and that "God" is the idea called "Love".
- 14) This accelerating self-discovery being experienced was created and activated by all of us.
- 15) We, as a product of extraterrestrial genetic manipulation, are possessors of a vast gene-pool consisting of many different racial memory-banks, also consisting of at least 22 different races. Because of our genetic heritage, and because we are spirit, the benevolent extraterrestrial races actually view us as being *royalty*! Now, that has to be the best-kept secret in the solar system! At least on this planet, anyway. They actually consider us royalty—all of us.

## The 'Anti-human' UN Biodiversity Treaty

You know, my wife and I talk a lot about this work. It's really easy just to do nothing, to hide. But we want to start a family, and

if I do nothing and allow this charade to go on, there is a chance that our child will not have the opportunities that we have had—not that it has been easy.

Our forefathers, who were rich men, sacrificed everything because they saw a pattern of *tyranny*. History is repeating itself over again. When you drive home tonight, you should count your blessings because you don't have to pass a checkpoint and show your ID like they do in some other countries.

Two hundred years ago, the United States changed the consciousness of the world. Today, because of the liberties that we have, we are under attack. Please don't take what we *do* have for granted. The easiest way for them to get to us is *economically*. Some time ago, credit card debt in the United States reached *US\$1 trillion*. If you look at all the public and private debt, coupled with the Federal debt and all the rest owed to other countries, all of us have on our back at least a *US\$60-trillion debt*. Now, I am a former CPA and I know numbers. There is *no way* to pay back all of this. The reality is, though, that we *can* change all of this.

I want to read two lines to you from this "Protecting Yellowstone" piece. They say, "in the UN Global Biodiversity Assessment vision of reality, human beings are just *one* strand in Nature's web, having no more rights than any other creature". Does that sound like a human being wrote that? Now think about it. It says that a human being has no more rights than any other creature. Now, it's one thing to live in harmony, but are you going to tell me that an ant or cockroach has the same consciousness as you and I? No. But they want to lump us all together.

## Humans Shackled by Lack of Vision

We received a tape that talks about the Gunderson Railroad Company in Oregon getting a contract to build 107,200 railroad cars that have 143 sets of shackles in each one. I have done some checking, and it's an absolute reality. So, they intend on transporting 15,000,000 people in these train cars.

You have to end the denial. If you believe nothing else about the ETs—and I am telling you with all of my heart—they are behind all of this. The regressives are into *control*, and the only way you can control is to *dominate*. Now, if there is a planet that has *self-rule*, you are not in control of it. There is no mystery to this. But, because we are who we are—sons and daughters of God who have been given free will—they have to *coerce* us into giving up our free will.

Religions, which *have* had a positive effect as far as unifying people and supplying a basic foundation of values, are now being used to control and manipulate. According to the Andromedan perspective, we have outlived our religions by 450 years. Instead, more and more religions are popping up everywhere, and all it is doing is dividing us.

There is no common vision. Indecision married with a lack of vision—that is where we are now as a race. This does not mean that somebody has to come forward and say, "I've got the answer, so all of you follow me." I don't know about you, but that doesn't work for me. It has already been tried and it was a disaster. The world is no better than it was 2,000 years ago. All they do is kill the teachers, and then it's business as usual.

But, if we *all* stand up and say, "Hey, we are going to do this together," and we make a leap of faith in each other, and even for a week just *trust* each other, maybe we can make a change here. But we are the ones who are going to have to do it. The people at the top sold us out a long time ago, and they are so petrified that they even lie about lying.

Ten days before Kennedy died, he said, "the Office of the Presidency is being used to subvert the rights of the people, and it is my right to tell them"—or something like that. In 1978, Congress admitted during hearings that there probably *was* a cover-up, and then they sealed the records for another 75 years! If "Oswald did it", then why the cover-up? Why seal the records? Because everybody who was involved is still alive. If we knew the truth, what would happen?

### If we are Eternal, then what's the Fear about?

All *matter* is changing because all *thought* is changing. The Andromedans have said this, and we talked about it yesterday. During a period 357 years in the future, there is tyranny in our galaxy. It's not going in the right direction. We are supposed to become more social and more free—not more imprisoned and more suppressed. It begins with *us*.

Freedom of speech and freedom of the press are almost a joke today. That is why the government is trying to come down on alternative newsletters—because they are telling you truth. That's why they want to shut down the Internet, because it is growing so fast that people are waking up.

World governments are getting flak from the ETs. The only reason that these aliens can be here is because they feed off *fear*. It is the only power they have over us. We are *souls*. We are *spirits*. We are *eternal*. Every religious book tells you that, so what's the *fear* about?

### Belief Systems and the Creation of Physical Reality

Let us pretend for a second that I start a rumour that my cat Sam can talk. Some people believe this, and for them it becomes a reality. Now, because they believe it, they are focussing their *intent* on the fact that Sam can talk. Now, my cat can't talk. Generation after generation believe that Sam talked, because they propagated the belief system that Sam could talk.

Morenae and Vissaeus have said that because of our ability to create physical reality with our thoughts and belief systems, we are literally going to play out the *Book of Revelations*. We are literally *calling* it to us. I know that some of you have a hard time with this, and I apologise. I am not here to burst your bubble. I am here to offer a perspective. That's it. I am not here to take you out of your comfort zone. I am here to *share*, because this is a burden I carry. They say that we are literally going to *fulfill* it. But, *we don't have to*. We don't *have* to create earthquakes. There are going to be some; but it doesn't have to be to the degree we believe it will be. We don't have to create a Third World War or even allow it. Bosnia is just the start of it. The killing of Rabin in Israel is only part of what's coming. I want you to be crystal-clear on this: it is all being manipulated to *distract* you. So, what have you done about it?

The Earth, according to the Andromedans, is a *living entity* and has decided it is going to evolve to fifth density. In other words, as an organism, it has chosen *survival*. The Earth has pockets of negativity inside of it because of its history. Volcanic eruptions can be considered metaphorically as the release of blockages. The

Earth is sick and has taken a beating.

You have the masses on the surface participating in the creation of *fear* because we are buying into the belief systems we are being fed in the media. We are told of the "second coming", catastrophes that are coming, etc. Now, fear is not *love*. It carries an entirely different frequency. In fact, fear is an extremely low frequency. Here we are, creating all of this. People are getting very sick physically. There are viruses spreading; many of them have been deliberately created.

My understanding is that the oxygen level in the atmosphere of the planet is less than 18 per cent. It is approximately between 16.5 and 17.7 per cent at any time, anywhere on the planet. This is significant. I want you to know that 3,500 years ago, the oxygen level was 35 per cent. In order to survive, the human body needs to breathe an atmosphere that has at least 15 per cent oxygen content. That is basic biology. The Andromedans say that unless we change our ways of behaving, with all of the industrialisation and what we are doing to the planet, we have *less than 40 years* of oxygen left.

Personally, I thank God that this new colour-sound frequency is emanating from the black holes. Thank God that God has stepped in, because we'd be in a lot of trouble.

Yes, free energy has been withheld from us. We have been lied to, cheated and manipulated. If you go back to the 1960s and look at the peace marches about nuclear energy, etc., and look at the environment now, you will see that it has only got worse. The governments are going to try to use this against us. They are going to try to blame *us* for the result of *their* greed that has propagated this problem.

What did we do? We made fun of the hippies and people who participated in peace movements. We treated them as a bunch of crackpots. Now, if you look back, you can see that they were

*right*. We have over 150,000 nuclear weapons on this planet, with plutonium that is deadly for 12,000 years. Where are you going to put that stuff? We all *know* this, but we do nothing and walk the path of convenience. We've all been trained like good little sheep to walk the path of convenience.

Money is a useful tool to create freedom, but it is not God and it is not master. You are about to find out. At most, we have 18 months. I think it would be lucky for the economy to stay together that long. I don't foresee that. The fact that they want to begin to change the currency in February 1996 means you should expect an economic collapse in April 1996. They would then do a recall of all old currency, and you might have one currency in use. It will get even weirder after that. We are being very carefully led down this path.

### Earth Changes from the Andromedan Perspective

1) Between June and October 2003, there is a strong probability that we will wake up one morning and the Moon will no longer be there. The Moon is in fact an artificial satellite and there are many, many bases on it.

2) Between 2003 and 2007, the benevolent races are supposedly going to be all around us. We will see them, but they will not

"The Earth, according to the Andromedans, is a living entity and has decided it is going to evolve to fifth density.

In other words, as an organism, it has chosen survival."

interfere. They want to see how we interact with each other without manipulation. They want to see if we continue the same behaviour, because they do not want to come down here and compound the problem or babysit. We don't need a babysitter. We need the *truth*, and we have to have the guts to stand up and ask the questions and keep asking them until we get the answers. We all have to do it, because if we all stand together we can't lose. On the other hand, if they are successful in dividing us, we're toast. Divide and conquer. Divide and conquer. How many stories in history do you have to see? We can't be divided and expect to remain as one. It doesn't happen.

3) Between 2004 and 2007, all of our DNA coding—which involves all the racial memory of the 22 races our DNA is composed of—will unlock. By 2007 we will have full memory of who we are, where we came from and what we want to do. We will know what our soul lessons are and our reasons for being here.

4) Between 2007 and 2012 we are supposed to see the birth of a galaxy in Vega, just before we move into fifth density.

5) Between 2007 and 2009, if it is allowed to happen *naturally*, we are supposed to have a 17-degree pole shift. Saudi Arabia is supposed to become the new North Pole, which is great—bury those oil fields nice and deep! We will have *free energy* by then, anyway. North America is supposed to be on the Equator.

6) By the year 2000 we are going to hear more and more reports of 'ghosts', because what is happening is that the frequency—which is God—which will be hitting the planet will be raising the vibration. Third and fourth density will be getting closer together as third density starts to implode. What this means is that the molecules in our bodies will begin to speed up. We are not dead matter. We will be passing out of third and into fourth on our way to fifth density, and passing all the consciousness that has *not* evolved or *chooses* not to.

7) There is a possibility that, between 1996 and 1997, one-third of Japan is going to sink below the ocean. [Response from audience member: "I just got a report from a friend of mine who came back from India, that Sai Baba, on his 70th birthday, advised a Japanese group there to leave Japan."] The Kobe earthquake was *manufactured* because the Japanese Government will *not* sell out its people to the New World Order. They will *not* make their people take an implant. They are being made an example of. Economically the Japanese are tough, but they don't turn on their own people.

8) There is a high probability that in July 2003 we will also have a *magnetic* pole shift—the first one in 4,671 years. This will impact on all electromagnetic devices on the planet. Animals will be lost. It will throw off everything.

9) Between 1996 and 2012, some of us on the planet are going to be fluctuating between being optically visible and non-visible on a physical basis; fluctuating between dimensions. There are five individuals on the planet who do this already. Many of them will be children who will reveal what they have learned during their fluctuation in order to try to help their parents get there.

Many children born today already have *three* strands of DNA. I am told you don't need the other strands. All we need is one more and it's all happening. It's happening *naturally*. If you open yourself up and allow *free* movement of love in your life, it will happen within you. If you restrict yourself, hold yourself back and move into denial, you will be suppressing the energy that is coming in and you will create disease. This is going to affect the men more than the women. The male thought-pattern of being logical is past. It is time to try something different.

Q: Do you mean that the men are going to have to express their 'womenhood'?

AC: Yes, that's exactly what I mean. They are going to have to move out of the masculine-dominated world role and into a more *nurturing* role, not only with Self but with everyone else. It will be a tough lesson for men because of all the out-of-balance role-models they have been exposed to and had to put up with. They need to be more in balance. We have to make the effort. Again, it comes down to *intent*.

10) We are going to have to become more responsible and exercise our free will because there are going to be Earth changes. People who live on coastal areas have a problem. The oceans are going to rise at least 200 feet between 1996 and 2008. The ice cap at the South Pole is going to slip. The ocean will not reach Denver, Colorado, but will get as far as Lake Mead in the West. Most of the east coast will be alright except for areas in Florida and an area in Georgia. The panhandle of Texas will be under water for two years.

11) Around 2011, our Sun will undergo a 180-degree pole shift. It is literally going to turn on its axis.

12) All of the continents which border the Pacific will be affected by tidal waves because of eruptions of volcanoes in the ocean. The French nuclear test in December '95 created a *seven-mile-long*

*crack* in the crust at the bottom of the ocean. These people are *crazy*, folks; absolutely crazy. We know how to destroy ourselves. We have that down to a science. We don't need to be testing these. We can't use them anyway.

13) Within the next 10 years, the major cities in the United States will be under *quarantine* because of the spread of tuberculosis. The average life-expectancy of men in the inner city will be 43 years of age; for women it will be 55. You are going to see the end of welfare, free medical, county services, etc., because everybody will be *bankrupt*. Again, this is *all by design*. Many people will be moving out to communities outside cities, growing their own food, and having their own private police forces. So, those of us who make these choices are going to be stepping back into the 1800s—horses and buggies. And, hopefully, free energy.
